

A Great Volunteer Opportunity – Art Literacy!

We Believe Art Literacy ...

- ...teaches students to **think creatively** and **problem solve**, both which will help **prepare** them for the **future**.
- ...helps students **form mental images** – an ability chemists, engineers, architects, designers and inventors use to **think up new ideas**.
- ...celebrates **many perspectives**. Students learn there are many ways to **see** and **interpret the world**. Problems can have more than one solution and questions can have more than one answer.
- ...is so **much more than what you see!**

Become an Art Literacy Volunteer for your child's class today

- Being an Art Literacy Volunteer takes about **3–4 hours for each lesson**.
- All **3 lessons are ready for you**. You :
 - Come to a daytime or evening training meeting before each new artist lesson.
 - Present the lesson to a classroom and do a hands-on art project. All materials provided!
Or come and just **help** the day of the art project.
 - Classroom times are scheduled well in advance so you can plan your calendar.
- Class presentations are scheduled for all 6th, 7th and 8th grade classes in early **December with Architect Julia Morgan, Andy Warhol in March and Chinese Painting to end the year in May or June**.
- Volunteers will be contacted via email after school begins. We will likely meet sometime in early November.
